RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

Aisla Acaredo

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

George Chavez
1300 N Chaffee Ave.

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

I own property in the Hernandez Valley area in Southern San Benito County, California. My family and friends and I use the Tucker Zone area of the CCMA on a year round basis for hiking, hunting, rockhounding, wildlife viewing and other recreational purposes.

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource, as well as the value of my property. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

I own property in the Hernandez Valley area in Southern San Benito County, California. My family and friends and I use the Tucker Zone area of the CCMA on a year round basis for hiking, hunting, rockhounding, wildlife viewing and other recreational purposes.

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource, as well as the value of my property. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

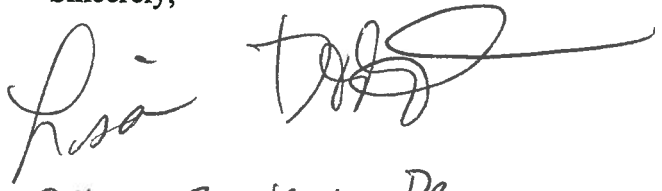

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

590 Gilmar st.

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

I own property in the Hernandez Valley area in Southern San Benito County, California. My family and friends and I use the Tucker Zone area of the CCMA on a year round basis for hiking, hunting, rockhounding, wildlife viewing and other recreational purposes.

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource, as well as the value of my property. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

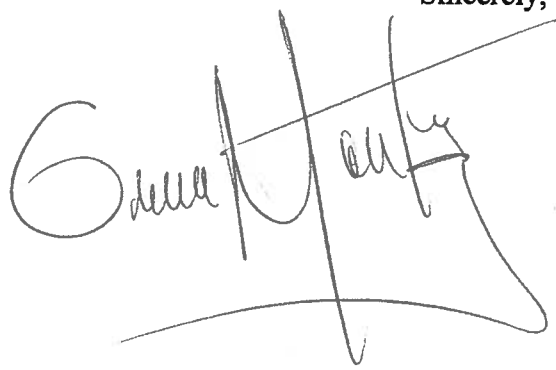

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

The Tucker Zone:

Feb, 2010

Dear Sirs:

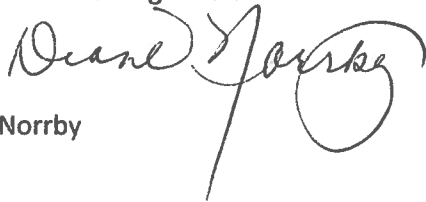

My husband and I have enjoyed portions of the Clear Creek Management Area for over 17 years. I have been on the Monterey Peninsula since 1964 and have traveled many places in this country, Europe and China. Our home is the Monterey Peninsula and we on one or two occasions yearly go into the CCMA area at the invitation of friends. They own property in the location.

Over the years we have watched our children grow up in the quietness there, the closeness of wild life and the serene semi wildness of the area. We love it there.

As we have grown older our friendships have expanded, our children have moved to other areas of the United States but we always return along with new friends to the Tucker area.

It would be a shame to this pristine area turning it into the likeness of everywhere else with noise pollution increased congestion, reduced air quality, dirty side roads, fences and a real compromise to the fineness of this beautiful part of California.

Please do not change that.

A handwritten signature in black ink, appearing to read "Diane Norrby". The signature is fluid and cursive, with a large loop at the end of the last name.

Diane Norrby

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

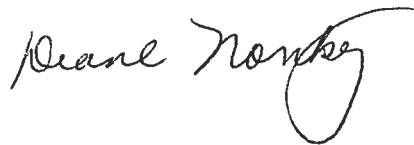

My family and friends and I use the Tucker Zone area of the CCMA on a regular basis for hiking, hunting, rockhounding, wildlife viewing and other recreational purposes.

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

21801 Bass Lake Cir.

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact
Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear
Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

I own property in the Hernandez Valley area in Southern San Benito County, California. My family and friends and I use the Tucker Zone area of the CCMA on a year round basis for hiking, hunting, rockhounding, wildlife viewing and other recreational purposes.

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource, as well as the value of my property. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal. I also incorporate by reference all of the comments set forth in the discussion outline entitled Hernandez Valley Property Owners Discussion Topics for BLM Meeting submitted to BLM on February 22, 2010 in Hollister, California.

Your careful consideration of our comments and concerns will be appreciated.

Sincerely,

Matthew Velador

RE: Tucker Zone
November 2009 Draft Resource Management Plan and Environmental Impact Statement ("RMP/EIS") for the Bureau of Land Management's ("BLM's") Clear Creek Management Area ("CCMA")

Dear Ladies and Gentlemen:

BLM should not select any alternative plan for the CCMA which involves the sale of any BLM land in the Tucker Zone, or the construction of any new roads or off highway vehicle trails in the area. To do so would devastate a wonderful wildlife habitat resource. It would also jeopardize Cane Canyon, which is eligible for inclusion in the Wild and Scenic River Inventory and must be protected by the BLM.

The Tucker Zone should be used as a wildlife conservation and wilderness study area to mitigate the loss of wildlife habitat elsewhere in the CCMA. My family, friends and I fully support the East Hernandez Valley Property Owners' February 20, 2010 Public Access Proposal for the Tucker Zone and encourage the BLM to adopt such Proposal.
